E- á- tam me di- cent * omnes ge- ne- ra- ti- ónes,

This figure is a phylogenetic tree diagram. It features a central vertical axis with horizontal branches extending to the right. The branches are represented by thick black lines. Nodes where branches meet are marked with black squares. Some of these nodes contain additional symbols: an exclamation mark (!) at the top center, a minus sign (-) near the middle center, a plus sign (+) above a node on the right, and a question mark (?) below a node on the right. The tree is rooted on the far left, indicated by a small vertical tick mark. The overall structure is a complex branching pattern with several major clades.
