

Ant. 8.

C

ontri-tum est cor me-um in mé-di-o me- i, con-

A diagram of a neural network with three layers. The first layer has two neurons, represented by small black rectangles. The second layer has three neurons, also represented by small black rectangles. The third layer has two neurons. The neurons are arranged horizontally, with each neuron having a small white circle at its top center representing an activation function.

tremu-é-runt ómni-a ossa me-a.
