1

A horizontal sequence of black shapes on a grid. The shapes include various rectangles, squares, and a single diamond-like shape. The sequence starts with a small cluster of rectangles on the left, followed by a series of vertical rectangles and a small diamond. This is followed by a large, irregular shape that tapers to the right. After this, there is another small cluster of rectangles. A vertical line of three rectangles follows, and finally, a single vertical rectangle on the far right.
